

 CATERING

Streamline your catering operations

Fulfill large orders at scale with a beautiful site and all the features you need.

Catering Features

- Create your ideal digital catering menu with ease
- Build unique rules separate from your regular online ordering
- Setup lead times and cutoff times for more control
- Add a variety of coupons, deals, and special pricing
- Seamless integration with third-party delivery platforms

Managing Orders

- Enable staff to place catering orders on behalf of customers
- Quotes can be created before they reach the POS
- Accept deposits before the total amount is due
- Allow customers or employees to edit details before the order is prepared when last minute changes pop up
- Smart routing transfers orders between restaurants in the event a location can't fulfill it
- View upcoming orders at the restaurant or corporate level
- Receive daily emails to track current and future orders

Other Benefits

- House Accounts for added flexibility
- Branded invoices for payment and streamlined reconciliation
- Setup tax exemption for qualifying customers
- Flexible fees for order size, delivery, cancellations, and more
